REMARKS

The specification was rejected under 35 USC §132 as introducing new matter into the application as originally filed by virtue of the Preliminary Amendment filed with the present application on July 17, 2001.

To address the rejection, Applicants herein amend the application to designate it as a Continuation-in-Part rather than a Continuation. Accordingly, Applicants herein amend the Cross-Reference to recite that the present application is a Continuation-in-Part of U.S. Serial No. 09/497,562, filed February 3, 2000. These amendments are shown in Appendix I attached herewith. Further, Applicants submit herewith a new Oath and Declaration signed by all the inventors in the present application and attesting to the new subject matter and duty of disclosure.

Rejection under 35 USC §112

Claims 1-25 remain in the application for consideration. Claims 1-25 stand rejected under 35 USC §112 as containing subject matter that was not described in the specification in such a way as to reasonably convey to one of skill in the relevant art that the inventors had possession of the invention at the time the application was filed.

Applicants submit that the above amendments to the specification, in combination with the new Oath & Declaration, moot this rejection. Accordingly, Applicants submit that this rejection is overcome.

Applicants now submit that the claims are in condition for allowance, and a notice of allowance is respectfully solicited.

If the Examiner has further questions, he is cordially invited to contact Applicants' representative at the telephone number below.

Respectfully submitted,

EFRAIM SAGIV ET AL.
